Tech Lead SCRM Lidl International Hub | Senior .NET Backend Engineer | C# · Azure · MongoDB · Microservices

Barcelona y alrededores

Extracto

Senior .NET Backend Engineer and Squad Tech Lead with 10+ years of experience designing and delivering scalable backend systems using C#, .NET Core, Azure, and MongoDB. At SCRM Lidl International Hub, I lead a cross-functional squad responsible for backend architecture decisions, technical roadmap definition, and hands-on development of high-throughput APIs powering Lidl's international operations. I bridge the gap between engineering execution and product goals, acting as the primary technical point of contact for stakeholders across multiple countries. My background spans the full seniority arc — from individual contributor building production systems, to co-founding a tech startup as CTO, to mentoring and leading engineering teams. I thrive in environments where technical depth and people leadership go hand in hand.

Experiencia

SCRM Lidl International Hub

6 años 8 meses

Squad Tech Lead

enero de 2026 - Present (7 meses)

Barcellona

Leading the technical direction and day-to-day execution of a cross-functional team within Lidl's international tech hub. Responsibilities span architectural decision-making, code quality governance, sprint planning, and stakeholder alignment across product, data, and infrastructure teams.

- Define and maintain the squad's technical roadmap, balancing delivery speed with long-term system health.
- Conduct technical interviews and contribute to hiring decisions for backend engineering roles.
- Mentor junior and mid-level engineers through structured code reviews, pair programming sessions, and 1:1s.

- Act as escalation point for complex technical problems involving distributed systems and API performance.

Senior .Net Backend

diciembre de 2019 - enero de 2026 (6 años 2 meses)

Barcelona y alrededores

Core backend engineer within one of Europe's largest retail tech hubs, developing and maintaining high-availability APIs and microservices supporting Lidl's digital operations across multiple countries.

- Designed and implemented RESTful APIs and event-driven services using .NET Core, C#, and Azure Service Bus, handling millions of daily transactions.
- Led migration of legacy monolith components to microservices architecture, improving deployment independence and system resilience.
- Integrated Azure Cosmos DB and MongoDB as primary data stores for high-read workloads, applying schema design patterns to optimize query performance.
- Collaborated with international product squads across Spain, Germany, and Poland to define API contracts and data models.
- Progressively took on technical leadership responsibilities including sprint planning, code review processes, and onboarding of new team members.

1 año 3 meses

Team lead

agosto de 2019 - diciembre de 2019 (5 meses)

Polinya, Cataluña, España

Programador informático

octubre de 2018 - agosto de 2019 (11 meses)

Polinya, Cataluña, España

Pisos.Com HabitatSoft, S.L. (Grupo Vocento)

Programador

febrero de 2017 - octubre de 2018 (1 año 9 meses)

Granollers y alrededores, España

Technology stack:

C#

Angular

React

Js Prototypes

InLevel Tech Solutions

Co-founder & CTO

agosto de 2015 - diciembre de 2016 (1 año 5 meses)

Barcelona

CTO en Inlevel Tech Solutions

Tecnologías utilizadas:

OpenCV

Microsoft Speech

C#

MongoDB

C++

Tus Media

Programador

noviembre de 2014 - diciembre de 2016 (2 años 2 meses)

Programador en c# con mongodb y elasticsearch.

Tecnologías utilizadas : MVC.

Framework : .Net 4.5

Metodología Ágil :Scrum

Educación

Universitat Oberta de Catalunya

Software, Bachelor's degree in Techniques for Software Application
